

Trash pick up Saturday, 12/13
On LD20's mile of AZ89 between mileposts 166 and 167

We will meet behind the Starbucks, southwest corner of Ajo Way and Camino de Oeste, at 9:00 am. Please sign the roster when you arrive. There is little or no shade and there are grasses, a few cacti, and lots of weeds on the roadside, so, highly recommended: hats, sunscreen, close toed shoes, long pants

You might also bring a comb and tweezers in case you run into a cholla, as well as water, gloves, and a trash grabber, if you have these. We will have some of all of those things, but probably most people would rather have their own gloves and water bottles. We will definitely provide you with the required safety vests, trash bags, and ties for the bags. We purchased a few trash grabbers, and some gloves.

ADOT requires us all to watch this video before taking part in Adopt a Highway trash pickup and to sign an affidavit asserting that we have watched this or read the similar safety materials (which I will have.)
